Scrutiny and VFM.....

- **Expectation on landlords to actively involve tenants and other customers in reviewing how they deliver value for money.**

Housing options – housing “health checks”

- **Considering offering housing health checks to support tenants and prospective tenants to consider the best housing options for them**
- **At point of application or during a tenancy?**
- **Help landlords to make best use of their housing stock and support people to secure accommodation which meets their needs in the longer term**

Looking forward.....

- **What opportunities are there for tenants and tenant groups to be involved in monitoring and assessing your landlord's performance on the Charter**
- **What should landlords be doing to promote the Charter and support and involve tenants/tenant groups in ARC reporting and scrutinising Charter performance?**

“The success of the Charter has been recognised both here and internationally as key to improving the standard of services and is recognised good practice in tenant engagement and service delivery.”
